

CPSC 473 - Web Front-End Engineering for Internet Applications

Assignment 1 - Spring 2017

Section 2 due January 30. Section 1 due February 1.

In this first assignment, you will work through Chapters 1 and 2 of the textbook and upload the result to GitHub.

Complete the following:

1. Create a free account on [GitHub](#), if you do not already have one.
2. Install and configure a Git client (e.g., [git](#), [SourceTree](#), or [GitHub Desktop](#)).
3. Read the [Hello World](#) GitHub Guide and configure your computer for use with GitHub.
4. Work through Chapter 1, installing and configuring the required software.
5. Work through Chapter 2, creating `styles.css` and `index.html` and downloading and extracting `front-end-dev-resources.zip`.
6. Confirm that your result matches Figure 2.15.
7. Complete the *Silver Challenge: Adding a favicon.ico*.
8. Create a new public GitHub repository and push your changes.

Grading

How to know if the assignment has been successfully completed:

- ✓ Do you have a GitHub account?
- ✓ Is there a new public repository for Ottergram?
- ✓ Does the repository include all the required files?
- ✓ Is the appearance of the resulting page correct?
- ✓ Is there a `favicon.ico` with a picture of an otter?
